PROJECTS

Portfolio | **Source Code:** [\(GitHub\)](#) *A portfolio website built with Gatsby/React*

HTML | JS (React) | CSS (Styled-Components) | GraphQL | Markdown | Gatsby | Contentful

- Consumes raw markdown and converts it into project pages dynamically
- Consumes data over the Contentful API to generate blog post
- Queries exposed Markdown and Contentful API using GraphQL

Water My Plants | **Source Code:** [\(GitHub\)](#) *Fullstack CRUD Web Application*

HTML | JS (React) | React Router | Redux | CSS (Styled-Components) | Semantic UI | Node JS

- Authenticates and implements protected routes for authorized users
 - **POST** requests are used to send data to the **API** server to create or update the web app
 - Dynamically renders UI based on data returned from server endpoints
-

EDUCATION

Lambda School, Remote | Jan 11. 2021 - Present **Full Stack Web Development, Computer Science & Technical Leadership**

Was accepted to Lambda's intensive internship program for Web Development, requiring 40+ hours weekly. Through dedicated hard work, mastered 9 industry-standard technologies & languages, built 9 major projects, worked on 3 week-long project builds with my team including leadership roles, and was acting mentor to developers earlier on in their journey.

- Developed technical, leadership, and professional skills under the guidance of a highly skilled educational staff with years of experience in all aspects of the industry.
- Took leadership opportunities, leading teams and managing projects for 3 week-long product builds.

EXPERIENCE

Tesinc LLC, Desktop Technician

August. 2019 - Jan 2021

- Imaged company machines with proprietary windows OS
- Wrote custom Powershell scripts to automate installation of network printers, and to migrate user data between machines

Target, Guest Service

Oct. 2016 - Feb. 2019 | 2.5 years>

- Resolved customer discrepancies and answered customers' questions regarding services and products
- Validated customer identification on check written transactions
